SOURCE: [REDACTED]

1. At the Gheorghiu Dej State Shipyard in Turnu Severin two mine sweepers are now under construction for the Rumanian Navy. They are of Soviet design and of the T 301 type. Both were begun in August 1952 and are to be completed in August 1953.
2. These mine sweepers are about 30 meters long, 5 meters in beam, and 1.5 meters in draft. Each mine sweeper will have a crew of 35 men. The power plant has three Diesels of the MAN type, 500 hp. each. The displacement is about 130 tons. They are armed with two 76.2 mm guns, two 40 mm and two 20 mm.
3. The shipyard is managed by the Sovromtransport Company. The work force consists of 950 to 1,000 men, in three shifts. The General Director of this shipyard is Mihai Yemfimov and the Rumanian engineers are Pavel Traistaru, Ion I. Gavrilescu and Dumitru Carata.
4. The equipment of the shipyard was overhauled in 1950 and it was provided with a building slip crane, and a rolling crane.
